

BUSINESS ANALYTICS ASSIGNMENT

Day-3:

1 .What is Data Collection?

2.What are the types of data collection methods?

3. What is the difference between primary and secondary data?

4. What is Data Management?

5.What are the key steps involved in designing a data collection process?

6. How do you handle missing data in a dataset?

7. What are the common methods of data collection, and when would you use each?

8. How do you ensure the quality and accuracy of data collected from multiple sources?

9. What strategies do you use for scaling data collection in a high-growth environment?

10. How do you handle data governance in decentralized data architectures like Data Mesh?
