

CYBER SECURITY ASSIGNMENT QUESTION

DAY 47

- 1. Define three different types of Denial of Service (DoS) attacks and explain how they disrupt services.**
- 2. Describe three techniques used in Distributed Denial of Service (DDoS) attacks and how they amplify the impact on the target.**
- 3. Outline the steps involved in auditing a target for susceptibility to DoS and DDoS attacks.**
- 4. Propose three countermeasures and protections to mitigate the impact of DoS and DDoS attacks on a target.**
- 5. Develop a comprehensive DDoS response plan for an organization to minimize the impact of DDoS attacks.**
