DATA SCIENCE ASSIGNMENT

DAY 6:

1. What are some commonly used graphical charts in healthcare analytics, and how are they beneficial?

2. Compare a bar chart and a scatter plot in the context of retail analytics.

3. Explain the importance of using graphical charts in healthcare decision-making.

4. Define measures and metrics in business statistics. How do they differ?

5. Explain why it's important to distinguish between measures and metrics in business analytics.
