

DATA SCIENCE ASSIGNMENT

Day - 70:

- 1. Which of the following machine learning libraries provides specific tools or modules for implementing probabilistic algorithms?**
- 2. In text classification tasks, which probabilistic algorithm is commonly used for its simplicity and effectiveness, especially with small training datasets?**
- 3. What is the primary objective of emotion mining in natural language processing (NLP)?**
- 4. What is the code that is used to check the version of TensorFlow using Python?**
- 5. How to plot a circle in MATLAB? write example.**
