

# DATA SCIENCE ASSIGNMENT

## Day - 71:

**1. Which of the following tasks is most closely related to the concept of spam filtering in text analysis?**

**2. Which of the listed libraries is commonly used for implementing sentiment analysis models in Python, especially for its ease of use and integration with other deep learning frameworks?**

**3. In MATLAB, which tool or toolbox can be used for implementing probabilistic algorithms and text mining tasks?**

**4. How to create a matrix in MATLAB?**

**5. How to write functions in MATLAB?**
